The Lakes Series Boardroom Chair

Chairs Limited developed The Lake Series Boardroom Chair to satisfy demands for comfort and durability in an economical chair made in Canada from Canadian components. Any more Canadian, and we could tap it, and make maple syrup. Visit our factory showroom to see this chair up close.

CHAIRS Limited can offer Workplace Ergonomic Assessments to help ensure your workstation "works" for you.

When it comes to chairs, one size definitely does not fit all. We believe a chair properly fit to the individual will go a long way toward increased productivity and good employee health.

Our chairs are manufactured in our Dartmouth, Nova Scotia manufacturing facility, and are backed by a solid 5 year limited warranty. We are ISO 9001:2000 Quality Certified, assuring our customers of consistently high quality products being delivered to their staff.

Our chairs are available in a variety of colour and fabric choices.

ISO 9001:2000 Certified
