

arm swings away when not required (additional option)

Designed, as all the arms, to attach to any seat in the Chairs Limited. collection. This arm is width adjustable, customizing the sitting area. An additional option allows you to swing the arm away completely.

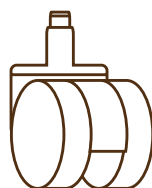

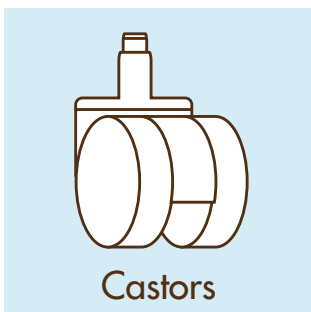

tactile pads move with you depending on your task

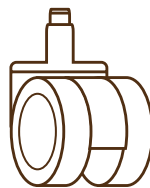

Designed specifically for computer-intensive environments. The Jelly Bean will comfortably support your arm whether you are working on a keyboard or with a mouse. This arm is also width adjustable, customizing the sitting area.

Designed with a strong steel core and comfortable cushioned surface, the International arm has no edges to catch or tear at suit jacket pockets. This arm is also width adjustable, customizing the sitting area.

Carpet Castor

Smooth Floor Castor

We offer two choices in castors. Each are designed for specific floor conditions, either carpeted or smooth surface for ease of movement.
